Finacle Core Banking | Finacle Scripting | Enterprise Application Support | Oracle SQL | Production Support | Incident Analysis & Resolution | User Acceptance Testing (UAT) | Production Deployment Support | CRM Support

Business Analysis:

Requirement Gathering | Business Process Analysis | Functional Documentation | Stakeholder Management | Root Cause Analysis | Problem Solving

Operations & Administration:

Process Improvement | Documentation Management | Inventory & Operational Reporting | Supplier Coordination | Data Validation | Cross-functional Collaboration

Key Professional Experience:

7+ years – IT, Business Operations & Enterprise Applications

3+ years – Finacle Core Banking, Oracle SQL & Business Analysis

4+ years – Enterprise Application Development & Application Support

1+ year – UAE Administrative Operations, Reporting & Procurement Coordination

PROFESSIONAL EXPERIENCES

Administrative & Operations Assistant

EOC Medical Supplies, Dubai, UAE | Mar 2025 – June 2026

- Managed daily administrative operations, including invoices, delivery notes, purchase documentation, inventory records, and shipment processing.
- Prepared and maintained operational reports using Microsoft Excel, supporting inventory tracking, procurement activities, shipment monitoring, and management reporting.
- Coordinated with suppliers, manufacturers, freight forwarders, and internal teams to ensure timely procurement, shipment, and order fulfillment.
- Maintained accurate digital and physical records, ensuring documentation compliance and resolving inventory and documentation discrepancies.
- Supported cross-functional business operations by maintaining accurate records, improving administrative efficiency, and delivering timely customer support.

Application Support Specialist (Finacle Core Banking)

H2 Software Consulting Services Inc., Philippines | Sep 2021 – Jan 2025

Client: Robinsons Bank (now part of Bank of the Philippine Islands)

Environment: Finacle Core Banking | Oracle SQL | CRM | MobaXterm | WinSCP

- Investigated loan account interest calculation issues by identifying schedule date discrepancies and preparing controlled SQL data correction scripts for approved production implementation.
- Enhanced and customized existing Finacle scripts for approved business requirements, including account creation restrictions, automated time-based sweeping, and motorcycle loan account creation. Conducted User Acceptance Testing (UAT) and participated in controlled production deployments.
- Provided production support for the Finacle Core Banking System, investigating and resolving incidents across Loans, CRM, and Core Banking modules while collaborating with business users to deliver functional solutions.
- Analyzed production issues using Oracle SQL, performing root cause analysis, identifying data discrepancies, and preparing controlled SQL data correction scripts (data patches) under approved change management procedures.

- Escalated complex application issues to Infosys Level 2 Support, providing SQL findings, application logs, technical analysis, and supporting documentation while working with developers, infrastructure teams, and system administrators to maintain production stability.
- Supported loan demand processing, validated corrected loan account records, and generated operational reports including Daily Negative Future Balance and Monthly SBA/TDA extracts.
- Supported operational banking requests, including GL Lifting and CIF Locate, by coordinating with Data Center teams and ensuring timely request fulfillment.

Analyst Designer

Fuji Xerox Document Management Solutions, Philippines | Jan 2015 – Jul 2018

- Processed structured data to compose standardized documents, ensuring accurate and consistent document generation.
- Analyzed requirements to identify and resolve data-related issues, supporting correct document composition and output quality.

eLearning Specialist

eLearning System Inc., eLearning Center, Makati City, Philippines | Jun – Dec 2014

- Supported colleges by proctoring students through the eLearning System.
- Managed student records, grade retrieval, and accurate data entry.
- Assisted with testing applications and validating system functionality.
- Performed basic computer system troubleshooting and end-user support.
- Maintained accurate documentation and administrative records.

DATA ANALYTICS PORTFOLIO

Retail Sales Performance Analytics | [View Portfolio](#)

- Designed and completed an end-to-end data analytics project using SQL, Python, Power BI, and Advanced Excel.
- Performed data cleaning, transformation, exploratory data analysis (EDA), and dimensional data modeling.
- Developed interactive dashboards and KPI reports to analyze sales performance, profitability, customer behavior, and regional trends.
- Applied business intelligence techniques to generate actionable insights and support data-driven decision-making.

E-Commerce Enterprise Analytics Platform | *(In Progress)*

- Developing an enterprise-scale analytics solution that simulates real-world business operations and decision support.
- Designing dimensional data models, ETL workflows, Star Schema, and business intelligence dashboards.
- Applying SQL, Power BI, and enterprise data architecture concepts to support operational reporting and executive decision-making.
